URI RICHARDSON

Aspiring Forward-Deployed Engineer · Tappan, New York · uri.richardson@gmail.com · (329) 209-1589

SUMMARY

Hello, I'm Uri. I'm a student at Tappan Zee High School and intend to pursue a career in computer science and software engineering, two fields in which I already have considerable experience. When it comes to work, I'm highly self-motivated — not because of external pressures, but because I genuinely love what I do. I learn fast, enjoy mastering new topics, and always push myself to improve. I look forward to working with you.

EXPERIENCE

Information Technology Intern — *Lower Hudson Regional Information Center* Jul 2026 – Sep 2026

- Managed inventory for 750+ IT devices across four locations, including computers, peripherals, cameras, interactive displays, and smart pens.
- Configured, deployed, and connected 20+ types of IT devices, verifying power, Ethernet, data connectivity, and operational readiness.
- Troubleshot network infrastructure issues across Ethernet cabling, ports, patch panels, switches, and VLAN configuration; coordinated with network teams to resolve complex connectivity problems.
- Diagnosed, repaired, and upgraded computer hardware; installed and routed network, data, and AV cabling through ceilings, walls, and racks; supported installation of AV systems and interactive smart-board displays.
- Performed preventative maintenance on network and server rack environments and streamlined large-scale, repetitive deployment workflows, significantly reducing task completion times while meeting project deadlines.

President — *Computer Science Honor Society, Tappan Zee High School* Sep 2025 – Present

- Lead the society's mission of advancing computer science education, academic excellence, and community engagement.
- Organize meetings and initiatives, encourage student involvement in technology, and support outreach that strengthens interest in computer science across the school and broader community.

Project Manager — *SO BOTZ, FIRST Robotics Competition Team #6911* Aug 2025 – Present

- Coordinate tasks, timelines, and deliverables for a 60+ member FIRST Robotics Competition team.
- Support robot design, build, and programming; manage communication and project tracking through Notion, Microsoft Teams, and Google Classroom; oversee progress across subteams.
- Contribute to presentations and promote FIRST core values of teamwork, innovation, and gracious professionalism.

PROJECTS

REACH — Assistive Electric Grabber — *Project Invent × Mosaic Senior Living* Oct 2025 – May 2026

- Built a joystick-controlled, electrically powered assistive grabber on a four-person team so seniors with limited grip strength can retrieve objects without bending, stretching, or reaching.
- Device extends 12″ to 30″+ via a custom telescoping lead screw system, with a servo-actuated claw and flexible TPU fingers; primarily 3D printed.
- Owned mechanical design, CAD modeling (Onshape model), prototyping, and 3D printing of the telescoping mechanism.

EDUCATION

Tappan Zee High School — *Blauvelt, NY* 2023 – 2027

- GPA: 94.7 / 100 · AP Computer Science Principles — Score: 5 (May 2025)

CERTIFICATIONS

Google AI Professional Certificate
Google · Jun 2026 · ID: VI461IV2IEXS

Python for Data Science, AI & Development
IBM · Oct 2025 · ID: X23BG1WPY01R

HONORS & AWARDS

RIT Engineering & Technology Award
Rochester Institute of Technology · May 2026 · Faculty-nominated

FIRST Leadership Award Semi-Finalist
FIRST Robotics · Feb 2026 · 1 of 2 team nominees

SKILLS

IT & Infrastructure: IT Asset Management, Network Troubleshooting, VLANs & Switches, Structured Cabling, Hardware Repair, AV Systems

Programming: Java, Python, GitHub, Object-Oriented Design

Design & Fabrication: CAD, Onshape, 3D Printing, Rapid Prototyping

Project Management: Leadership, Organization, Notion, Microsoft Teams, Google Classroom
